1. Continuing ministry during the pandemic

A. Worship has now completely transitioned to online only. After the governor's orders to limit gatherings to 25 people, the Bishop of the VA Synod recommended that worship not be held in person indoors. Most Lutheran congregations in the state are doing the same.

B. Worship and Music committee is meeting regularly. They were planning services around Christmas, but now they are looking at other options for worship.

2. Stewardship

Pastor Chris, Russ Strait, and John Voight met and are getting organized. They are finalizing a letter to send to the congregation in early December.

3. Budget

Discussion was had about what to do with money that has been sitting in designated accounts and not being sent or spent as planned. Most of this money came from the general budget in 2019 or before and was not sent to the organizations for which it was designated in 2019. Discussion will continue over the next month.

Council went into executive session.
